

# Business Rules

- A teacher must take and keep record of attendance once daily for the correct percentage to be calculated per student
- A teacher must receive a teacher ID and have record of each student ID in their class for each course along with their parents information
- The teacher and student ID's must be unique
- Parents must provide their name, phone number, and name for all of their children enrolled
- Students will have their addresses, and student ID numbers accessible to their teacher for each course
- Classes will have a name or description for the course and a room number so students can know which classroom to be directed to
- Schools must provide their school ID school name and address to correlate with the course when registering
